

DESCRIPTION:

° **BATTERY SHEAR MU16-B** is a powerful tool intended to cut bolts, locks, iron bars, metal reinforcements and grills. Weighing just 4,5 Kg, its capable of quickly cutting steel bars with a maximum 16 mm diameter. Being cordless, it can be used anywhere easily, without the burden of having to connect it to the mains.

° The MU16-B is an extremely safe and practical tool thanks to its anatomical grip and its cutting head which is suitable for any situation. This easy-to-use, quiet Battery shear guarantees thousands of cuts independently and safely.

° The MU16-B is supplied with a shock-proof plastic case, battery charger, two batteries and an additional handle.

INDUSTRIES AND APPLICATIONS:

- ° The Armed Forces
- ° The Fire Brigade for cutting through metal in emergencies
- ° Wire, chain, bolt, spring manufacturers and demolition.

**THE HEAD
TURNS 90°**

TECHNICAL SPECIFICATION

cutting capacity	16 mm.
weight	4,5 kg.
battery life	180 cuts
wattage	270 W
battery	18 V
speed	1 cut every 2 seconds
dimensions	395x105x315
