

	TYPE OF SEAL	RELIABILITY
1	 <p><b>UNNUMBERED LEAD SEALS</b> : Lead Seals unnumbered. Easy to close and re-open again. Still used by customs worldwide.</p>	<b>NONE</b>
2	 <p><b>NUMBERED STRAP SEALS</b> : Strap Seals with numbering. Easy to tamper. Still used by customs worldwide.</p>	<b>POOR</b>
3	 <p><b>NUMBERED BOLT TYPE SEAL</b> : High Security Seal: Very difficult to tamper (container door handles may still be target for tampering).</p>	<b>GOOD</b>
4	 <p><b>TRIPLE NUMBERED BARRIER SEALS WITH BAR CODE</b> : Very High Security Seals: Triple numbering and bar code. NO TAMPERING ON THE SEAL OR ON THE CONTAINER DOORS.</p>	<b>VERY GOOD</b>
5	 <p><b>ELECTRONIC SEALS</b> : Check on the security seals, containers and handling staff.</p>	<b>EXCELLENT</b>
