Carton with 1000 seals
Carton Dimensions:
Carton Weight:

## DESCRIPTION:
° Extra long plastic adjustable seal. Made up of 2 parts that are assembled at the time of use, by slotting the tail trough the flag and then sealing like a regular security seal.
° Quick and secure application.
° Metal insert in the blocking.

## HOW TO USE:
a.)  Slot the tip of the tail through the small hole located on one side of the seal's flag.
b.) Apply the seal to the desired application.
c.) With the seal assembled insert the tail through the blocking mechanism.
d.) Ensure the tail of the seal is pulled through as far as possible to guarantee the securest closure of the seal.
