

The closure of PAC SAFE is realized with an extra strong glue. It also has a double numbering: on the surface of the envelope that you will send, and on the coupon that you will keep to track the shipment.

**Be sure that the closing system is activated along its whole length.**

Once the closing system is activated, it is impossible to open the envelope without damaging it in a very evident way.

No tampering attempt will be success full.

**EACH ENVELOPE IS PROGRESSIVELY NUMBERED AND THERE IS NO HONEST WAY TO REPRODUCE IT**

**THANKS TO THE EXTRA STRONG GLUE, IT IS IMPOSSIBLE TO OPEN THE ENVELOPE WITHOUT DESTROYING IT.**

#### Standard Dimensions :

110x150+35 mm	( 4.33"x5.9"+1.37")
