

## TYVEK RFID WRISTBANDS SINGLE USE

RFID WRISTBANDS FOR HOSPITALS AND CLINICS  
LEGHORN TYVEK RFID SINGLE USE

### DESCRIPTION:

° LEGHORN TYVEK RFID SINGLE USE is designed for short hospital stays. It is a one-piece bracelet with a self-adhesive band for a quick and easy removal.

Details printed on the wristband resist to water, soaps, alcohol and other chemical products commonly used in hospitals to prevent the spread of bacteria like MRSA and similar.

° We can also find MOTHER-INFANT SINGLE USE. This range of LEGHORN TYVEK RFID wristbands is specifically designed for Neonatology and Paediatrics. "MOTHER" wristband is electronically linked to the "INFANT" one.

° Furthermore, it's possible to set up a system that electronically displays on your pocket pc or on your scanner some details about the patient once identified. These informations can be used for cross reference procedures, drugs, allergies, blood groups.

All of this in order to ensure a pleasant stay to the patient while making sure that the patient himself is getting the right care.

### The LEGHORN TYVEK RFID wristband:
